

Defining Values - Practice

Write the code to create a **solid, green star, size 50** and define it as PRIZE_STAR

Using the PRIZE_STAR definition from above, draw the circle and write the code for each of the exercises below.

A solid, green star that is 3 times the size of the original (using scale)	A solid, green star is half the size of the original (using scale)
A solid, green star of size 50 that has been rotated 45 degrees	A solid, green star that is 3 times the size of the original and has been rotated 45 degrees

How does defining values help you as a programmer?
