Exploring New Image Functions

With your partner, discover as many Image-producing functions as you can!

Use the table to organize your findings. An example has been filled out for you.

function	What does it need? (In order)	What are the datatypes? (In order)
star	*radius, style, color* *ex: (star 50 "solid" "blue")*	*Number, String, String*

Mystery Functions!

There is a function called text. Can you figure out how to use it?

There is a function called radial-star. Can you figure out what it needs?
